BBA

Lipids and Lipid Metabolism

Vol. 1168, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Molecular species composition of glycerophospholipids in rat sciatic nerve and its alteration in streptozotocin-induced diabetes
X. Zhu and J. Eichberg (USA) 1

Quantification of the interaction of lysolecithin with phosphatidylcholine vesicles using bovine serum albumin: relevance to the activation of phospholipase A_2
S.D. Brown, B.L. Baker and J.D. Bell (USA) 13

Energy-dependent export of leukotriene B_4 in *Xenopus* oocytes
M. Mori, T. Izumi and T. Shimizu (Japan) 23

Catalytic properties of rabbit kidney fatty acid ω-hydroxylase cytochrome *P*-450ka2 (CYP4A7)
A. Sawamura, E. Kusunose, K. Satouchi and M. Kusunose (Japan) 30

Detection of arachidonoyl-selective phospholipase A_2 in human neutrophil cytosol
C.S. Ramesha and D.L. Ives (USA) 37

An inhibitor of squalene epoxidase, NB-598, suppresses the secretion of cholesterol and triacylglycerol and simultaneously reduces apolipoprotein B in HepG2 cells
M. Horie, M. Hayashi, T. Satoh, H. Hotta, Y. Nagata, F. Ishida and T. Kamei (Japan) 45

Dietary lipids coinduce xenobiotic metabolizing enzymes in rat liver
E.K. Yang, A. Radominska, B.S. Winder and A.J. Dannenberg (USA) 52

The enteral bioavailability of eicosapentaenoic acid and docosahexaenoic acid is as good from ethyl esters as from glyceryl esters in spite of lower hydrolytic rates by pancreatic lipase in vitro
H.E. Krokan, K.S. Bjerve and E. Mørk (Norway) 59

Biosynthesis of 8*R*-hydroperoxylinoleic acid by the fungus *Laetisaria arvalis*
I.D. Brodowsky and E.H. Oliw (Sweden) 68

Bacterial expression, purification and partial characterization of recombinant rabbit reticulocyte 15-lipoxygenase
H. Kühn, B.J. Thiele, A. Ostareck-Lederer, H. Stender, H. Suzuki, T. Yoshimoto and S. Yamamoto (Germany, Japan) 73

Characterization of phosphatidylinositol-4-phosphate 5-kinase activities from bovine brain membranes
A. Moritz, J. Westerman, P.N.E. De Graan, B. Payrastre, W.H. Gispen and K.W.A. Wirtz (Netherlands, France) 79

ω-Hydroxylation of lipoxin B_4 by human neutrophil microsomes: identification of ω-hydroxy metabolite of lipoxin B_4 and catalysis by leukotriene B_4 ω-hydroxylase (cytochrome *P*-450LTBω)
Y. Mizukami, H. Sumimoto, R. Isobe and S. Minakami (Japan) 87

Biosynthesis of eukaryotic lipid molecular species by the cyanobacterium *Spirulina platensis*
K.P. Quoc, J.-P. Dubacq, A.-M. Justin, C. Demandre and P. Mazliak (France) 94

The effect of retinoids and clofibric acid on the peroxisomal oxidation of palmitic acid and of 3α,7α,12α-trihydroxy-5β-cholestanoic acid in rat and rabbit hepatocytes
A.-K. Östlund Farrants, A. Nilsson, G. Trøen, R. Blomhoff and J.I. Pedersen (Norway) 100

Phospholipase A_2 activity and exocytosis of the ram sperm acrosome: regulation by bivalent cations
E.R.S. Roldan and C. Fragio (UK) 108

Effect of human native low-density and high-density lipoproteins on prostaglandin production by mouse macrophage cell line P388D1: possible implications in pathogenesis of atherosclerosis
D. Jambou, N. Dejour, P. Bayer, J.-C. Poirée, A. Frédenrich, M. Issa-Sayegh, M. Adjovi-Desouza, P. Lapalus and M. Harter (France) 115

Regular Papers

Glycosphingolipid compositions of human T-lymphotropic virus type I (HTLV-I) and human immunodeficiency virus (HIV)-infected cell lines
K. Matsuda, T. Taki, S. Hamanaka, T. Kasama, C. Rokukawa, S. Handa and N. Yamamoto (Japan) 123

Effect of okadaic acid on apo B and apo A-I secretion by CaCo-2 cells
S.N. Mathur, E. Born, W.P. Bishop and F.J. Field (USA) 130

Activation of plasma lysolecithin acyltransferase reaction by apolipoproteins A-I, C-I and E
M. Liu and P.V. Subbaiah (USA) 144

Dietary vitamin A modulates lecithin-retinol acyltransferase activity in developing chick intestine
T. Goda, S. Furuta and S. Takase (Japan) 153

Injury to the arterial wall of rabbits produces proteoglycan variants with enhanced low-density lipoprotein-binding property
S.R. Srinivasan, J.-H. Xu, P. Vijayagopal, B. Radhakrishnamurthy and G.S. Berenson (USA) 158

Limited metabolic interaction of serine with ethanolamine and choline in the turnover of phosphatidylserine, phosphatidylethanolamine and plasmalogens in cultured glioma cells
Z. Xu, D.M. Byers, F.B.St.C. Palmer, M.W. Spence and H.W. Cook (Canada) 167

Inhibitory effect of melanin precursors on arachidonic acid peroxidation
A. Napolitano, A. Palumbo, G. Misuraca and G. Prota (Italy) 175

Purification and properties of a lipase from *Penicillium expansum*
W. Stöcklein, H. Sztajer, U. Menge and R.D. Schmid (Germany) 181

Saturated dicarboxylic acids as products of unsaturated fatty acid oxidation
S. Passi, M. Picardo, C. De Luca, M. Nazzaro-Porro, L. Rossi and G. Rotilio (Italy) 190

Re-uptake of nascent low-density lipoproteins by HepG2 cells
S. Hara, M.R. McCall and T.M. Forte (USA) 199

Effects of triiodothyronine administration on dietary [^{14}C]triolein partitioning between deposition in adipose tissue and oxidation to [^{14}C]CO_2 in ad libitum-fed or food-restricted rats
M.L. Cruz and D.H. Williamson (UK) 205

Phospholipase D activity of human amnion cells stimulated with phorbol ester and bradykinin
M. Mizunuma, S. Tanaka, R. Kudo and H. Kanoh (Japan) 213

Site-specific trapping of reactive species in low-density lipoprotein oxidation: biological implications
B. Kalyanaraman, J. Joseph and S. Parthasarathy (USA) 220

Rehydration induces rapid onset of lipid biosynthesis in desiccated *Nostoc commune* (Cyanobacteria)
P.A. Taranto, T.W. Keenan and M. Potts (USA) 228

Rapid Reports

Cholesterol 7α hydroxylase promoter separated from cyclophilin pseudogene by Alu sequence
J.F. Thompson, M.E. Lira, D.B. Lloyd, L.S. Hayes, S. Williams and L. Elsenboss (USA) 239

Crystalline cylindrical structures of Na^+-bound dimyristoylphosphatidylglycerol as revealed by microcalorimetry and electron microscopy
M. Kodama, T. Miyata and T. Yokoyama (Japan) 243

The presence of G_{M1} in liposomes with entrapped doxorubicin does not prevent RES blockade
M.J. Parr, M.B. Bally and P.R. Cullis (Canada) 249

Regular Papers

Determination of the lipase stereoselectivities using circular dichroism (CD); lipases produce chiral di-*O*-acylglycerols from achiral tri-*O*-acylglycerols
H. Uzawa, T. Noguchi, Y. Nishida, H. Ohrui and H. Meguro (Japan) 253

Solubility of hydrophobic surfactant proteins in organic solvent/water mixtures. Structural studies on SP-B and SP-C in aqueous organic solvents and lipids
J. Pérez-Gil, A. Cruz and C. Casals (Spain) 261

Isoforms of rat apolipoproteins and changes induced by insulin deficiency and fasting
M.J. Callow and T.G. Redgrave (Australia) 271

Specific labeling of *Candida tropicalis* peroxisomal proteins with photoreactive fatty-acid derivatives
D. Mangroo, L. Steele, R.A. Rachubinski and G.E. Gerber (Canada) 280

Preferential incorporation of dietary *cis*-9,*cis*-12,*trans*-15 18:3 acid into rat cardiolipins
R.L. Wolff, N.A. Combe, B. Entressangles, J.-L. Sebedio and A. Grandgirard (France) 285

Phenytoin increases specific triacylglycerol fatty esters in skeletal muscle from horses with hyperkalemic periodic paralysis
J.E. Fletcher, K. Erwin and J. Beech (USA) 292

Low molecular mass GTP-binding proteins are secreted from mammary epithelial cells in association with lipid globules
D. Ghosal, D. Ankrapp and T.W. Keenan (USA) 299

Effect of phospholipid headgroup composition on the transfer of fluorescent long-chain free fatty acids between membranes
J.E. Sunderland and J. Storch (USA) 307

Full length synthetic surfactant proteins, SP-B and SP-C, reduce surfactant inactivation by serum
J.D. Amirkhanian, R. Bruni, A.J. Waring, C. Navar and H.W. Taeusch (USA) 315

Topography of basal and stimulated biosynthesis of GlcNAc-P-P-dolichol and $(GlcNAc)_2$-P-P-dolichol: variation in effect of proteolysis
E.L. Kean (USA) 321

New method for the isolation of polyglycosylceramides from human erythrocyte membranes
H. Miller-Podraza, C. Andersson and K.-A. Karlsson (Sweden) 330

Studies with etofibrate in the rat. Part II: a comparison of the effects of prolonged and acute administration on plasma lipids, liver enzymes and adipose tissue lipolysis
C. Bocos, M. Castro, G. Quack and E. Herrera (Spain) 340

Dynamics of the oxidation of low density lipoprotein induced by free radicals
N. Noguchi, N. Gotoh and E. Niki (Japan) 348

Characterization of choline metabolism and secretion by human placental trophoblasts in culture
S.C. Garner, S.-C. Chou, M.-H. Mar, R.A. Coleman and S.H. Zeisel (USA) 358

Cumulative Contents, Vol. 1168 365
